| 1    | Association between opioid abuse and COVID-19 susceptibility: a propensity score matched study                                                                                           | Original Article     | ISI                                       | BMC Infectious Diseases                    | 2023             |
| 2    | Investigating oral health among US adults with sleep disorder: a cross-sectional study                                                                                                   | Original Article     | ISI                                       | BMC Oral Health                            | 2023             |
| 3    | Effect of alcohol on Brain-Derived Neurotrophic Factor (BDNF) blood levels: a systematic review and meta-analysis                                                                        | Original Article     | ISI                                       | Scientific Reports                         | 2023             |
| 4    | Molecular Identification and Detection of Streptococcus pneumoniae Serotypes Isolated from the Cerebrospinal Fluid of Children with Suspected Meningitis: First Report From Alborz, Iran | Original Article     | Other                                     | International Journal of Enteric Pathogens | 2023             |
| 5    | Ketamine versus electroconvulsive therapy for treatment-resistant depression: An updated meta-analysis of randomized clinical trials                                                     | Letter to the Editor | ISI                                       | Asian Journal of Psychiatry                | 2023             |
| 6    | Outcomes, Risk Factors, and Incidence of Acute Kidney Injury in Hospitalized COVID-19 Patients                                                                                           | Original Article     | ISI                                       | Iranian Red Crescent Medical Journal       | 2023             |
| 7    | A novel radiofrequency modulation therapy versus routine physiotherapy modalities in treatment of myofascial pelvic pain syndrome: a pilot randomized trial                              | Original Article     | ISI                                       | Obstetrics and Gynecology Science          | 2023             |

|    |                                                                                                                                                           |                  |        |                                                       |      |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|--------|-------------------------------------------------------|------|
| 8  | Association between DLCO index and the severity of heart failure: a cross-sectional study                                                                 | Original Article | ISI    | Acta Cardiologica                                     | 2023 |
| 9  | Diagnostic value of ophthalmic artery Doppler indices for prediction of preeclampsia at 28–32 weeks of gestation                                          | Original Article | ISI    | International Journal of Gynecology & Obstetrics      | 2023 |
| 10 | Evaluation of the frequency of attention deficit hyperactivity disorder in patients with asthma                                                           | Original Article | Pubmed | Clinical and Molecular Allergy                        | 2023 |
| 11 | Immunologic Profile of Severe COVID-19 Patients in Alborz Province, Iran                                                                                  | Original Article | ISI    | Jundishapur Journal of Microbiology                   | 2023 |
| 12 | Comparison of Demoralization in Nurses of COVID-19 Wards and Other Wards Admitted to Hospitals Affiliated to Alborz University of Medical Sciences- 2021  | Original Article | Other  | Iranian Journal of Rehabilitation Research in Nursing | 1402 |
| 13 | Molecular detection of human parechovirus by real-time PCR in cerebrospinal fluid samples of pediatric patients with meningitis and meningoencephalitis   | Original Article | Other  | Medical Science Journal of Islamic Azad University    | 1402 |
| 14 | Tocilizumab in ICU-admitted COVID-19 Patients: A Retrospective Study                                                                                      | Original Article | Pubmed | Medical Journal of the Islamic Republic of Iran       | 2023 |
| 15 | The Effect of Opuntia Cactus Extract on Hospitalized Moderate COVID-19 Infection: A Randomized Controlled Trial                                           | Original Article | Scopus | Journal of Kerman University of Medical Sciences      | 2023 |
| 16 | Comparison of the Effect of "Acceptance and Commitment Therapy" and "Metacognitive Therapy" on the resilience of Women Undergoing Hemodialysis            | Original Article | Other  | ement Promotion Health of J                           | 1402 |
| 17 | Efficacy of spironolactone as adjunctive therapy to sodium valproate in bipolar-I disorder: A double-blind, randomized, placebo-controlled clinical trial | Original Article | ISI    | Brain and Behavior                                    | 2023 |

|    |                                                                                                                                                       |                  |        |                                               |      |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------|------------------|--------|-----------------------------------------------|------|
| 18 | COVID-19 associated Kawasaki-like multisystem inflammatory syndrome in an adult female with oral, ophthalmic and cardiac manifestation, a case report | CASE REPORT      | Other  | Iranian Journal of Emergency Medicine         | 2023 |
| 19 | Neurological Involvements in COVID-19: A hospital-based study                                                                                         | Original Article | ISI    | Iranian Journal of Child Neurology            | 2023 |
| 20 | The prevalence of depression and anxiety among Iranian people with multiple sclerosis: A systematic review and meta-analysis.                         | Original Article | ISI    | Multiple Sclerosis and Related Disorders      | 2023 |
| 21 | The application of artificial intelligence in the diagnosis and management of anemia                                                                  | Review           | Scopus | Iranian Journal of Blood and Cancer           | 2023 |
| 22 | Investigation of Uropathogenic Escherichia coli Strains in Children with Urinary Tract Infection in Karaj City                                        | Original Article | Other  | Alborz University Medical Journal             | 1402 |
| 23 | A Systematic Review of Atypical Presentations of Kawasaki Disease                                                                                     | Review           | Other  | International Journal of Enteric Pathogens    | 2023 |
| 24 | Bowel obstruction in body-packing: A case report and literature review                                                                                | CASE REPORT      | ISI    | International Journal of Surgery Case Reports | 2023 |
| 25 | Neurological Involvements in COVID-19: A hospital-based study                                                                                         | Original Article | ISI    | Iranian Journal of Child Neurology            | 2023 |
